

# AMERICAN JOURNAL OF OPHTHALMOLOGY

THIRD SERIES FOUNDED BY EDWARD JACKSON

VOLUME 47  
JANUARY-JUNE, 1959

---

## EDITORIAL STAFF

DERRICK VAIL, *Editor-in-Chief*  
ALAN C. WOODS, *Consulting Editor*

BERNARD BECKER  
WILLIAM L. BENEDICT  
FREDERICK C. CORDES  
SIR STEWART DUKE-ELDER  
EDWIN B. DUNPHY  
F. HERBERT HAESSLER  
PARKER HEATH  
S. RODMAN IRVINE  
JAMES E. LEBENSOHN

DONALD J. LYLE  
WILLIAM A. MANN  
P. ROBB McDONALD  
A. EDWARD MAUMENEE  
FRANK W. NEWELL  
JOHN V. V. NICHOLLS  
ALGERNON B. REESE  
PHILLIPS THYGESON

KATHERINE FERGUSON CHALKLEY, *Manuscript Editor*  
MILDRED SKINNER, *Advertising and Business Manager*

## COLLABORATORS

JOSEPH E. ALFANO, *Chicago*; EUGENE M. BLAKE, *New Haven*; FREDERICK C. BLODI, *Iowa City*; SYLVAN BRANDON, *Houston*; JAMES W. BRENNAN, *Buffalo*; WILLIAM C. CACCAMISE, *Rochester, New York*; ALSTON CALLAHAN, *Birmingham*; BEULAH CUSHMAN, *Chicago*; RAY K. DAILY, *Houston*; ALICE R. DEUTSCH, *Memphis*; JOSE A. FERREIRA, *Camden, New Jersey*; OLGA FERRER, *Havana, Cuba*; LAWRENCE L. GARNER, *Milwaukee*; IRWIN E. GAYNON, *Milwaukee*; VICTOR GOODSIDE, *Bronx, New York*; BERTHA T. HAESSLER, *Milwaukee*; WILLIAM G. HAGLER, *Atlanta, Georgia*; HARRY HORWICH, *New York*; MORRIS KAPLAN, *Denver*; PETER C. KRONFELD, *Chicago*; GYULA LUGOSSY, *Budapest, Hungary*; WALTER MAYER, *Richmond, Virginia*; PAUL W. MILES, *Saint Louis*; YUKIHIKO MITSUI, *Kumamoto, Japan*; EDWARD U. MURPHY, *Evanston, Indiana*; G. SCIOVILLE-SAMPER, *Wheeling, West Virginia*; DAVID SHOCH, *Chicago*; JOHN J. STERN, *Utica, New York*; EDWARD JOHN SWETS, *Denver*; V. TABONE, *Juliano, Malta*; PHILLIPS THYGESON, *San Jose California*; GEORGE S. TYNER, *Denver*; A. URRETS-ZAVALIA, JR., *Cordoba, Argentina*.

PUBLISHED BY THE OPHTHALMIC PUBLISHING COMPANY  
664 North Michigan Avenue, Chicago 11, Illinois

## SUBJECT INDEX

**Explanation:** Numbers in **boldface** refer to Original Articles and Notes, Cases, Instruments. The asterisk (\*) preceding the page number indicates that the paper was published in Part II of the January issue (pages \*337 through \*573). The dagger (†) preceding the page number indicates that the paper was published in Part II of the May issue (pages †1 through †232).

### A

- Aiducens palsy, operative treatment of,** 282
- Abscess:** See under names of various areas, organs, etc.
- ABSTRACTS:** 119, 260, 422, 603, 703, 901
1. Anatomy, embryology, and comparative ophthalmology: 260, 422, 603, 901
  2. General pathology, bacteriology, immunology: 260, 604, 902
  3. Vegetative physiology, biochemistry, pharmacology, toxicology: 263, 422, 606, 703, 904
  4. Physiologic optics, refraction, color vision: 272, 425, 612, 707, 907
  5. Diagnosis and therapy: 119, 274, 436, 614, 710, 911
  6. Ocular motility: 120, 281, 428, 618, 714, 913
  7. Conjunctiva, cornea, sclera: 121, 282, 429, 620, 715, 915
  8. Uvea, sympathetic disease, aqueous: 122, 285, 431, 624, 721, 917
  9. Glaucoma and ocular tension: 123, 285, 431, 625, 721, 918
  10. Crystalline lens: 127, 287, 432, 627, 725, 922
  11. Retina and vitreous: 130, 288, 434, 727, 925
  12. Optic nerve and chiasm: 134, 733, 928
  13. Neuro-ophthalmology: 136, 293, 438, 736
  14. Eyeball, orbit, sinuses: 138, 438, 738
  15. Eyelids, lacrimal apparatus: 139, 295, 440, 739
  16. Tumors: 140, 297, 741
  17. Injuries: 141, 298, 441, 743
  18. Systemic disease and parasites: 141, 299, 441, 744
  19. Congenital deformities, heredity: 145, 445, 745
  20. Hygiene, sociology, education and history: 146, 449, 746
- ACCOMMODATION:** and convergence, 270  
nonlinear relationships in, **455**  
effect sympathomimetic drugs on, 585  
electric response in, 263  
in strabismus, 121  
sympathetic control of, 585  
tonogram changes during, 721  
vergence and, 120, 585
- Acrylic lens, in anterior chamber,** 288, 726  
See also **Intraocular lens**
- Adaptation, instrument to mark,** 616, 617
- Adenocarcinoma, metastatic to distal nerve and optic disc,** 195
- Adenovirus:** See under **Virus**
- Adie's syndrome,** 137
- Africa, cataract in,** 924
- AFTER-IMAGES:** muscle proprioception and, 910  
myosensory impulses from eye muscles and, 709  
to treat squint amblyopia, **809**
- Air, injection of, cyclodialysis and,** 722
- Albumin content of aqueous,** 704
- Alcohol, amblyopia due to ethyl,** 136  
See also **Ethanol and Methanol**
- ALLERGY:** 902  
antiallergic therapy, 280  
auto-aggression diseases and, 262  
dermatoses due to, 903  
desensitization therapy in, 711  
encephalomyelitis and, uveitis in, 260  
eyelid affections due to, 739  
glaucoma and, 177  
in vernal catarrh, 283  
iritidocyclitis due to (experimental), 100  
opacification corneal graft due to, 426  
ophthalmomyiasis and, 716
- Alpha-chymotrypsin, effect on catgut sutures,** **898**  
effect on rabbit eye, 877  
histology zonulolysis with, 876  
in choriopathy and retinopathy, 936  
See also **Enzymatic zonulolysis**
- Amaurosis, congenital,** 927
- AMBLYOPIA:** 620  
differential diagnosis of, 613  
due to ethyl alcohol, 136  
fixation in, influence strabismus surgery on, 619  
hysterical, autonomic conditioning in, 875  
autonomic responses in, 273  
selective perception in, 273  
polaroid glasses to treat, 273  
strabismus and, after-images to treat, **809**  
operations for, and, 120  
visual improvement in, 910  
tobacco, vitamin B<sub>12</sub> deficiency and, 132  
visual acuity determination in, 709
- Ametropia, in school children,** 272
- Amino acids, effect on regeneration of visual purple,** 612
- Amnion cells, tissue culture of human,** 262
- Amperometric titration, of lens,** 707
- Amphotericin B, effects of,** 261
- Amyloidosis,** 139
- Anemia, pernicious, visual damage due to,** 928
- ANESTHESIA:** after cataract surgery, 923  
**Avertin for,** **592**  
cocaine, effect hyaluronidase on corneal, 266
- GENERAL:** cataract extraction under, 43  
for infants, 912  
for intraocular surgery, 428  
in cataract extraction, 127  
muscle relaxants and, in cataract surgery, **487**  
glaucoma and, 724  
in cataract surgery, **411**  
lytic cocktail for children, 712  
potentiated, 614  
succinylcholine in, 882
- Aneurysm, arteriovenous of retina,** 434  
of brain, visual field defects in, 137  
of retina, 727  
pseudoaneurysm, 434  
pulsating exophthalmos due to, 738
- Angioid streaks, of retina,** 435
- Angiomas, of orbit,** 742
- Angiomatosis, of retina,** 729, 731
- Aniseikonia, retinal detachment and,** **468**
- Anisokoria, familial,** 745
- Anomaloscope, examination with Nagel,** 709
- Anoxia, cataract and,** 609  
influence on eye, 609
- ANTERIOR CHAMBER:** after cyclodialysis, 285  
angle, red ring of, miotics and, 126  
electronic manometer for, 615  
epithelial invasion of, experimental production of, **815**  
flat, after glaucoma operations, **248**  
hemorrhages, after cataract extraction, Diamox in, 628  
weather and, 628  
herpetic virus in, 719  
hyaline deposits in, 622  
lenses in, acrylic, 288, 726  
implantation of, 128  
See also **Acrylic lenses and Intraocular lenses**  
instrument to enlarge opening into, 710  
iris spaces and communication with, 603  
irrigation of, device for, **134**  
outflow from shallow, 424  
oxygen pressure in, 703  
sodium thiocyanate penetration into, 268
- Anterior segment, inflammations of, protein-C reaction in,** 624
- Anthranilic acid, in simple glaucoma,** 626
- Antibiotics,** 712  
speramycin, a new, 95  
topical, **590**  
See also under names of various antibiotics
- Antiemetic drugs, in cataract surgery,** **177**

**Explanation:** Numbers in **boldface** refer to Original Articles and Notes, Cases, Instruments. The asterisk (\*) preceding the page number indicates that the paper was published in Part II of the January issue (pages \*337 through \*573). The dagger (†) preceding the page number indicates that the paper was published in Part II of the May issue (pages †1 through †232).

- Antihistamines**, 280
- Antistreptolysin-O**, determination in uveitis, 94  
reactions in eye disease, 615
- Aorta**, coarctation of, fundus changes in, 744  
retinal vessels in, 443  
stenosis of, fundus changes in, 609  
syndrome of aortic arch, 135
- APHAKIA**: Bilateral, binocular vision and, 129  
conoid contact lens for, 588  
keratoplasty in, protection in, 913  
retinal detachment in, 926  
unilateral, acrylic lens in, 288  
contact lens in, 726
- AQUEOUS**: agar microelectrophoresis of, 704  
albumin content of, 704  
cells in, in uveitis, 1163  
changes, after death, 263  
induced by X rays, 270  
chemical composition of dogfish, 101  
Cx-reactive protein in (rabbit), 263  
dialysis against plasma, 705  
dynamics, effect superior cervical ganglionectomy on, 705  
osmotic pressure of intraocular fluids and, 97  
effect on connective tissue, 27  
floaters, in diagnosis papilledema, 928  
in diagnosis papillitis, 928
- FLOW**: after bulbar pressure test, 424  
after Priscoline, tonography to study, 724  
24-hour variation in, 607
- formation**, carbonic anhydrase and, 342  
influence on aureomycin, 270  
influence carbonic anhydrase inhibitors on potassium and sodium of, 1214  
osmotic pressure of, in anaphylactic uveitis, 904
- OUTFLOW**: effect parasympathetics on, 879  
facility of, perfusion vitreous (cat) and, 657  
ocular tension and, 879  
patterns of, in cat eye, \*547  
perfusion studies on, 657, 704  
Poiseuille's law and, 610  
radiography of, 906  
through trabecular meshwork, 267  
oxygen saturation of, 703  
penetration of Butazolidine into, 269  
plasmoid, 612  
proteins of, effect hypothalamus stimulation on, 266  
secondary, thromboelastographic research on, 264  
secretion of, effect beta radiation on, \*553  
study of, with  $\text{NaHCO}_3$ , \*530  
ultrasound absorption in, 424
- Argyrosis**, in photochemical industry, 441
- ARTERIES**: aortic arch syndrome, surgery in, 135  
brachial, pressure in, fundus picture and, 119  
carotid, ocular manifestations of insufficiency or thrombosis of, 753  
thrombosis of, ophthalmodynamometry and, 453  
cilioretinal, occlusion of, 684  
hypertension and, fluorescein test in, 142  
pulmonary, hypertension of, glaucoma and, 123
- Arteriosclerosis**, chorioretinopathies of, 134  
intraocular circulation in, 443
- Arteritis**, blindness due to giant-cell, 445  
segmental retinal peri-, 544  
temporal, 745  
eye affections in, 615
- Arthus phenomenon**, in cornea, 122
- Asian influenza**, eye in, 427  
eye complications of, in Iran, 284  
ophthalmic good-will tour, 112
- Aspherical objective lenses**, in indirect ophthalmoscopy, 572
- Association for Research in Ophthalmology, Inc.**:  
East-Central Section, 585  
Eastern Section, 94  
Assoc. for Research in Ophthal., Inc.: (continued)  
Midwest Section, 875  
Southeastern Section, 409  
Western Section, 235
- Asthenopia**, from viewing television, 119
- ASTIGMATISM**: after cataract surgery, 436  
after glaucoma surgery, 426  
Astikorrekt to determine, 426  
corneal, device to determine angle of, 272  
Jackson's cross cylinder in correction of, 907  
new test chart for, 409  
surgery of, 614
- Astikorrekt**, to determine astigmatism, 426
- Ataractic drugs**, in cataract surgery, 177
- Atropine**,  $\text{C}^{14}$ -labelled, distribution in rabbit eye, 880
- Audiometer**, tests in pigmentary retinal degeneration, 130
- Auditory findings**, in Boeck's sarcoid, 673
- Aureomycin**, influence aqueous on, 270
- Australasia**, trachoma in, 718
- Australia**, trachoma in, 1134  
in Northern, 503
- Avertin anesthesia**, 592
- B**
- Bandage**, improved eye, 687
- Barbiturates**, in endobulbar surgery, 712
- BC-48** (Demecarium bromide), in glaucoma, 98
- Becker, Bernard**, \*336  
biography, \*338  
publications, \*340
- Behcet's disease**, 444, 917
- Benzocaine**, for ciliary block in blind eyes, 867  
-urethane solutions, in blepharospasm, 267
- Beta radiation**: See under Radiation
- Bicarbonate ion**, in intraocular fluids, 704
- Biomicroscopy**, in corneal tumor, 718  
in limbus tumor, 718  
with polarized light, 279
- Blastomycosis**, ectropion due to, 139
- Blepharoconjunctivitis**, vitamin B and, 621
- Blepharospasm**, benzocaine-urethane solution in, 267  
Rhaetocaine in, 741  
surgery of, 139
- BLINDNESS**: causes of, 747  
giant-cell arteritis causing, 445  
prevention of, 595
- BLOOD**: effect trypsin on, injected into vitreous, 906  
types, corneal transplantation and, 48  
in keratoplasty donors, 122  
vessels, cilioretinal artery occlusion, 684  
volume, aqueous outflow and, pattern of in cat, \*547  
water content of, water-drinking test and, 618
- Blood-aqueous barrier**, changes in during tonography, 905
- Blue sclerotics syndrome**, simulating buphthalmos, 345
- Body**, build of, glaucoma and, 176
- Boeck's sarcoid**, auditory findings in, 673  
corneal findings in, 673
- Bones**, zygomatic, diplopia in fracture of, 298
- BOOK REVIEWS**:  
American Foundation for the Blind: Itinerant Teaching Service for Blind Children, 701  
American Ophthalmological Society, Transactions of, 701  
Arrington, George E., Jr.: A History of Ophthalmology, 601  
Bahr, von, et al.: Documenta Ophthalmologica: Advances in Ophthalmology, 418  
Bangert, A., and Steidele, M.: When-What? The Routine of the Treatment of Amblyopia. (Experiences in the School for Plectics and Orthoptics in St. Gallen), 118  
Bedrossian, E. Howard: The Eye: A Clinical and Basic Science Book, 601  
Boyd, Benjamin F.: Highlights of Ophthalmology, 116

**Explanation:** Numbers in **boldface** refer to Original Articles and Notes, Cases, Instruments. The asterisk (\*) preceding the page number indicates that the paper was published in Part II of the January issue (pages \*337 through \*573). The dagger (†) preceding the page number indicates that the paper was published in Part II of the May issue (pages †1 through †32).

# BOOK REVIEWS (continued)

- Carlevaro, G., and Ouilhon, H.: La Méthode Optopsy-chopédagogique, **602**
- Clerici, Antonio: A Documental Study of the Fundus Oculi: Volume I. Alterations in the Retinal Circulation, **419**
- Conn, Howard F.: Current Therapy—1959, **900**
- Duke-Elder, Sir Stewart: The Eye in Evolution (System of Ophthalmology, Volume 1), **256**
- Finestone, S., and Gold, S.: The Role of the Ophthalmologist in the Rehabilitation of Blind Patients, **899**
- Fregni, Riccardo, and De Poli, Attilio: Tumor orbito-paranasali, **259**
- Hugonnier, René: Strabismus: Heterophorias Paralysies Oculo-Motrices, **900**
- Indian Year-Book of Ophthalmology—1956, **118**
- Klotz, H. P., et al.: La Tetanie Chronique ou Spasmodiphilie (Chronic Tetany or Spasmodiphilia), **700**
- Kozol, Frank: Ophthalmic Fitting and Adjusting, **421**
- Molloy, Robert E.: Medical Electrical Equipment, **117**
- Ophthalmological Society of the United Kingdom, Transactions of, **899**
- Pascheff, Konstantin: Rare Ocular Tumors, **419**
- Radnót, Magdo: Pathologie des Auges, **602**
- Ranson, S. W., and Clark, S. L.: The Anatomy of the Nervous System: Its Development and Function, **700**
- Sorsby, Arnold: Systemic Ophthalmology, **421**
- Stallard, H. B.: Eye Surgery, **601**
- Vail, Derrick (Editor): Year Book of Ophthalmology: 1958-59, **701**
- Vaughan, Daniel, Cook, Robert, and Asbury, Taylor: General Ophthalmology, **259**
- Veirs, Everett R.: So You Have Glaucoma?, **118**
- Velhagen, Karl, et al.: Der Augenarzt: Volume I, **257**
- Veterans Administration: War Blinded Veterans in a Postwar Setting, **420**
- Wolstenholme, G. E. W., and O'Connor, C. M. (Editors): Water and Electrolyte Metabolism in Relation to Age and Sex, **117**
- Bowman's membrane, degeneration of, **717**
- hemispherical bodies in, **260**
- Boyle, Robert, on "vitiating sight," **449**
- Brain, children with damage of, reading problems in, **74**
- pseudotumor of, or benign intracranial pressure, **215**
- Brazil, color vision in Indians of, **746**
- visual acuity in Indians of, **746**
- Butazolidine, effect on lenticular ATP, **607**
- penetration of, into aqueous, **269**
- retinal and lens metabolism and, **423**

## C

- Campimetry, test object for, **617**
- Canthotomy, **83**
- Canthus, external ligament of, percutaneous division of, **83**
- Capillaritis, senile, calcium ionization and, **277**
- Capillary fragility, central retinopathy and, **132**
- Carbohydrate metabolism, effect inhibition of on electroretinogram, **705**
- CARBONIC ANHYDRASE: activity in lens, zinc-free diet and, **265**
- aqueous formation and, **\*342**
- inhibitors, effect on urinary citrate excretion, **878**
- influence on potassium and sodium content of aqueous, **1214**
- Neptazane and Diamox, **268**
- See also under the names of various inhibitors: Diamox, etc.
- CARCINOMA: metastatic to retina, **44**
- of eyelid, surgery for, **297**
- of lacrimal sac, **296**
- of optic nerve, **77**
- of retina, **742**
- Carotid: See under Arteries
- CATARACT: after glaucoma surgery, surgical technique for, **548**

# CATARACT (continued)

- complicated, adenosinetriphosphoric acid and, **265**
- synechotome for, **127**
- congenital, **287**
- ichthyosis and, **130**
- surgery of, **288, 627**
- cyclotron, **120**
- developmental, surgery of, **128**
- dinitrophenol, **924**
- enzymes and enzyme inhibitors in production of, **876**
- EXTRACTION: after glaucoma surgery, **250**
- after iridencleisis, **627**
- after zonule disinsertion, **128**
- anterior chamber hemorrhage after, Diamox in, **628**
- weather and, **628**
- astigmatism after, **426**
- by expression, **127**
- by traction, **396**
- capsule puncture before, **127**
- Chandler's maneuver in, **923**
- corneal flap in, incision for, **128**
- edema of macula after, **726**
- endophthalmitis after, management of, **130**
- enzymatic zonulolysis in, **129, 432, 433, 434, 627**
- See also Enzymatic zonulolysis
- general anesthesia in, **127, 433**
- in presence of fluid vitreous, **249**
- infection after, **433**
- optic nerve atrophy after, **726**
- optic neuritis after, **928**
- papilledema after, **726**
- ptosis after, **250**
- pupil dilation: before, **434**
- 324 consecutive, survey of, **433**
- without assistant, **606**
- wound of, **725**
- healing of, **726**
- floriform, **146**
- galactose, **434**
- in Africa, **924**
- in galactosemia, **628**
- incisions, scissors to enlarge, **388**
- influence anoxia on development of, **609**
- lactic dehydrase action in, **703**
- lightning, **726**
- megalocornea and, **621**
- membranous, familial, **923**
- mimosine, **1107**
- morgagni luxated, **924**
- naphthalene, **611**
- prevention of disseminate, after zinc cauterization, **276**
- proteins in, fractions of soluble, **266**
- radiation, experimental induced by microwaves, **94**
- protein synthesis in, **\*368**
- retinal detachment prevention in, **576**
- retinal ischemia and, **862**
- SURGERY: **922, 924**
- anesthesia in, **411, 923**
- ataractic and antiemetic drugs in, **177**
- cases lost before, **172**
- denuding cornea in, **230**
- general anesthesia in, **487**
- flexible retractor for, **692**
- fluorescing illumination in, **643**
- hypotony and, **411, 923**
- in megalocornea, **130**
- modified knife and techniques for discission, **156**
- muscle relaxants in, **487**
- new procedures for, **922**
- pupil block in, **239**
- suture forceps for, **689**
- suturing method for, **433**
- wound closure after, **246**
- ultra-high-frequency radiation and, **627**
- Cervical ganglion, vitamin B<sub>12</sub> in eye after removal of, **608**
- Cetavlon, disinfectant and bactericide, **425**

**Explanation:** Numbers in **boldface** refer to Original Articles and Notes, Cases, Instruments. The asterisk (\*) preceding the page number indicates that the paper was published in Part II of the January issue (pages \*337 through \*573). The dagger (†) preceding the page number indicates that the paper was published in Part II of the May issue (pages †1 through †232).

- Chandler's maneuver, in cataract extraction, 923  
Chemical injuries: See under Injuries  
Chicago Ophthalmological Society, 103  
**CHILDREN:** ametropia in school, 272  
eye surgery in, lytic cocktail for, 712  
hemorrhage in, 744  
herpes zoster in, 294  
infective eruptive diseases in, eye complications of, 277  
metabolic diseases in, eye signs in, 299  
myasthenia gravis in, 128  
ocular tuberculosis in, in Zakopane, 713  
of diabetic mother, eye findings in, 146  
optic neuritis in, 735  
pseudoglioma in, 131  
reading problems in, 67, 447  
brain damage and, 74  
rheumatoid diseases in, eye signs of, 744  
special spectacle lenses for, 710  
uveitis in, 285  
visual examinations in, 709  
with brain damage, reading problems in, 74  
Chloroma, of orbit, 91  
Chlorothiazide: See Diuril  
Cholesteatoma, of cerebellopontine angle, nystagmus in, 137  
Choriopathies, alpha chymotrypsin in, 926  
Chorioretinal dysplasia, microgyria and, 925  
Chorioretinitis, granulomatous, 917  
tuberculous, nicotinic acid and streptomycin in, 616  
uveitis and, †173  
Chorioretinopathies, arteriosclerotic, 134  
**CHOROIOID:** detachment of, by ultrasound, 431  
treatment of, 625  
melanosarcoma of, 742  
plexus tissues of, secretory nature of, 587  
polyvinyl sponge to elevate, \*437  
Chromatopsia, after digitalis, 707  
Cibis, illumination technique of, for microscopy, 710  
Cigarettes, effect on intraocular circulation, 905  
Ciliary block, with Benzocaine in blind eyes, 867  
Ciliary body, cysts of, simulating melanoma, 624  
effect hypothalamus stimulation on, 266  
epithelium of, 878  
histochemical studies of, 878  
perforating wounds of, 399  
Ciliary process, secretory nature of, 587  
Cilioretinal artery, occlusion of, 684  
Cinema, ocular movements during viewing of, 914  
Circulation of eye, effect cigarettes on, 905  
in arteriosclerosis, 443  
in hypertension, 443  
Cisternography, opticochiasm syndrome and, 737  
Claude Bernard syndrome, 736  
Coal dust, action on eye, 743  
Cogan's syndrome, 916  
Collagen disease, 444  
effect aqueous on, 27  
marginal degeneration cornea as a, 621  
Colobomas, atypical of fundus, 134  
macular, with hereditary malformations, 290  
Color, yellow pigment of human lenses, 144  
Color blindness, color theory and, 273  
Color changes, influence light on (frog), 609  
Color defects, electroretinogram to study, 95  
Color perception disparity, in identical twins, 449, 911  
Color transparencies, mounting of, 748  
**COLOR VISION:** dark and light adaptation and, 709  
defects, congenital 908  
electroretinographic studies of, 95, 708  
hue discrimination between both eyes, 613  
in Brazilian Indians, 746  
in Navy, 273  
tests for, 588  
plates for, 708  
Commissurotomy, embolism central retinal artery after  
mitral, 90  
**CONGENITAL ANOMALIES:** ectopia lentis, 627  
familial heterochromia and, 446  
macular coloboma, 290  
of pregnancy, 446  
plastic repair of, 276  
retraction of eyeball, 619  
rubella in pregnancy and, 448

**French West Africa,** trachoma in, 147  
**Friedenwald, Lecture,** \*342  
   Memorial Plaque, acceptance of, \*337  
**FUNDUS:** brachial artery pressure and, 119  
   changes, hypertensive, reversibility of, 131

## FUNDUS (continued)

- in aorta stenosis, 609  
   in juvenile hypertension, 428  
   in pulmonary tuberculosis, 616  
   in sarcoidosis, 299  
   in uremia, 133  
   in uveomeningitis, 431  
   colobomas of, atypical, 134  
   examination, in coarctation of aorta, 744  
   image, indirect ophthalmoscopy to view, 275  
   in hypertension, in young patients, 275  
   lesions of, in polycythemia, 130  
   micrometer to measure details of, 616  
   vascular diseases of, PH203 and Hydergine in, 435  
**Fungus,** allergy due to eye infections with, 716  
   corneal infections with, fungustatic agents and, 705  
**Furacin,** 905  
**Fusion,** for distance, in anomalies of binocular vision, 281  
   frequency of flicker, fatigue and, 556  
   in strabismus with diplopia, 586

## G

- Gailey, Watson, 599  
**Galactose,** cataracts: See under Cataracts  
**Galactosemia,** cataract in, 628  
**Ganglionectomy,** superior cervical, effect on aqueous dynamics, 705  
**Gastric juice,** injuries of cornea, 620  
**Gastrointestinal extract,** in corneal epithelial dystrophy, 430  
**Gaze,** heterophoria and direction of, 120  
   paralysis of conjugate, 121  
**Gelatin film,** as seton in glaucoma, 690  
**Genes,** transmission of in ophthalmology, 261  
**Genetics,** in retinitis pigmentosa, 132  
   in retinoblastoma, 438  
**Geographic location,** glaucoma and, 165  
**Glass,** striated to test binocular vision, 272  
**GLAUCOMA:** after injuries, 747  
   after radiotherapy, 124  
   age and sex distribution of, 166  
   allergy and, 177  
   angle-closure, dark-room test in, 432  
   iridectomy for, complications of, 246  
   with plateau type iris, 126  
   anesthalgia and, 724  
   anti-Parkinson drugs and, 123  
   BC-48 in, 98  
   body build and, 176  
   chronic, early diagnosis of, 590  
   pulmonary artery hypertension and, 123  
   congenital, 411  
   blue sclerotics syndrome simulating, 345  
   goniotomy in, 190  
   pathogenesis of: a new theory, 827  
   control of, 641

- recurrent, management of, 248
- Ptosis**, after cataract surgery, 250
- after glaucoma surgery, 250
- jaw-winking and, surgery of, 352
- Pulseless disease**, ocular manifestations of, 135
- PUPIL:** action of sympathetic system on, 736
- anisokoria: See Anisokoria
- block, in cataract surgery, 239
- diameter, in dark-adapted eye in glaucoma, 922
- dilation, before cataract extraction, 434
- light reflex of, thresholds of, 706
- muscles of, new mydriatic's action on, 612
- pathways of, damage to, 138
- reaction, in normal man, 99
- updrawn or "tear drop," correction of, †227
- Pupulography**, electronic, 278
- Pupulotomy**, as symptom of sympathetic irritation, 137
- PsAM** (pyridine-2-aldoxime methiodide, to reverse echothiophate iodide, 635

## Q

- Quimotrase:** See Alpha-chymotrypsin
- Quinone-hydroquinone**, corneal changes due to, 715

## R

- Racial groups**, glaucoma and, 169
- Radiation**, beta, 592
- effect on aqueous secretion, \*553
- microwave, cataract produced by, 94
- therapy, beta, for glaucoma in Negro, 54
- dose to lens in, 287
- glaucoma after, 124
- in inflammations, 711
- ultra-high-frequency, cataract and, 627
- ultraviolet: See Ultraviolet
- Radioactive isotopes**, <sup>85</sup>Sr to study corneal healing, 903
- to study sodium sulfate uptake, \*519
- to diagnosis ocular tumors, 297
- to study mucopolysaccharides of cornea, 271
- to study protein dynamics of eye, \*361
- Radiography**, of aqueous outflow, 906
- Radiopaque substance**, to study optic nerve, 119
- Reading problems in children**, 447

# Reading problems in children (continued)

- ophthalmologist looks at, 67
- with brain damage, 74
- REFRACTION:** errors in, glaucoma and, 173
- in presbyopia, 910
- monocular trial frame for, 692
- ocular, after Diamox, 613
- ophthalmometer in, 274
- short-lasting mydriatic in, 274
- trial cases for, supplementary, 614
- Refsum's syndrome**, in children with diabetes, 137
- Reserpine**, in convergence insufficiency, 913
- RETINA:** acid mucopolysaccharides in beef, 203
- aneurysm of, 727
- arteriovenous, 434
- angioid streaks of, 435
- angiomatosis of, 729, 731
- arterial lesions of, spasm and, 733
- arterioles of, in toxemia of pregnancy, 438
- ARTERY:** embolism of central, 288
- after mitral commissurotomy, 90
- occlusion, of central, glaucoma secondary to, 127, 335
- pressure, after drugs, 708
- in pregnancy, 444
- of central, 271
- spasm of central, during strabismus surgery, 289
- thrombosis, 288
- astrogia of, persistent hyperplastic vitreous and, 491
- blood pressure of, in hypertension, 142
- blood vessels of, in coarctation of aorta, 443
- injection technique to study, 587
- pseudoaneurysm of, 434
- sheathing of, 927
- carcinoma of, metastatic to, 44, 742
- circulation of, in diabetes, 290
- in toxemia of pregnancy, 732
- time, cinephotography to study, 235
- dark adaptation of, 271, 426
- DEGENERATIONS:** audiometer tests in pigmentary, 130
- diaminodiphenoxalkanes inducing, 425
- glycolysis and respiration inhibitors inducing, 425
- iodate pigmentary, transaminase activity in, 607
- of peripheral, a histologic study, 153
- pigmentary, after NP 207, 289
- electroretinogram in, 649
- See also Retinitis pigmentosa
- secondary of human, 901
- vitreous proteins in, 607
- dehydrogenase activity of, 98
- DETACHMENT:** 590
- after intraocular surgery, 246
- aniseikonia after, 468
- at posterior pole, 435
- bipolar electrolysis in, 730
- bullous, 926
- californian, 435
- calcium oxalate and phosphate crystals in, 264
- electroretinogram in, prognosis of, 729
- electroshock, in presence of, 278
- etiology, and pathogenesis, 292
- pathology and surgery of, 565
- in aphakia, 926
- in myopia, treatment of, 730
- in pre-eclampsia, 134
- localization and examination in, 292
- melanosarcoma and, 297
- operations for, role sclera in, 288
- without tearing macula lutea, 435
- postoperative care of, 293
- prevention of, in cataract, 576
- scleral buckling in, 134, 290, 437, 731
- scleral folds in, 133, 615
- overlapping technique to produce, 132
- scleral imbrication for, 616
- scleral indentation in, 133
- scleral resection in, complications of, 437

**Explanation:** Numbers in **boldface** refer to Original Articles and Notes, Cases, Instruments. The asterisk (\*) preceding the page number indicates that the paper was published in Part II of the January issue (pages 137 through 573). The dagger (†) preceding the page number indicates that the paper was published in Part II of the May issue (pages 11 through 1232).

# RETINA (continued)

- DETACHMENT (continued)**
  - scleral resection in, **198**
  - current techniques, 436
  - procedures in, 436, 437
  - scleral surgery for, mechanical factors in, 436
  - subclinical, 293
  - subretinal fluid and, 727
  - drainage of, **198**
- SURGERY OF:** 292, 729
  - diathermy in, 728
  - or scleral resection, 732
  - drainage subretinal fluid in, **198**
  - influence ocular tension on, 732
  - intravitreal vitreous in, 291
  - lens subluxation after, 130
  - pins and forceps for, 131
  - postoperative ophthalmoscopy in, 732
  - vortex veins in, 728
  - symposium on, 292
  - tears in, instrument to locate, 731
  - traumatic, evaluation of, 133
  - uveitis and, **1174**
- diseases of, 729
- electric response of, 705
- epithelium, mice with absent sensory, 447
- fluid, composition of subretinal, 271
- function, flicker frequency to test, 133
- Visuscope to map, **677**
- hemangioma of, 434
- hole formation in, 926
- homogenates of, effect light on glutathione in, **207**
- inhibitory interaction in, 267
- ischemia of, cataract and, **862**
- lipemia of, 730
- lipids in, in hyperlipemia, 925

- Thorax injuries, ocular manifestation of, 141
- Thromboelastography, of secondary aqueous, 264
- Tissue culture, amnion cell (human), 262
- of lens epithelium, 129
- to study corneal viability, 772
- Tissues of eye, calcium oxalate crystals in, 271
- effect diathermy current on, 277
- historadiography of, 276
- phosphatase activity of, 268
- preservation of, 303
- corneal, 409
- in vivo storage of grafts of, 191
- spaces in, in iris, 603
- Toni-Fanconi syndrome, 145
- TONOGRAPHY:** after glaucoma operations, 920
- after water-drinking test, 724
- changes in, during accommodation, 721
- in blood-aqueous barrier after, 905
- constant-pressure, 723
- data interpretation in, 625
- effect of echthiophate iodide on, 635
- effect of prolonged, 723
- effect on intraocular blood volume, 606
- in strabismus, 286

**Explanation:** Numbers in **boldface** refer to Original Articles and Notes, Cases, Instruments. The asterisk (\*) preceding the page number indicates that the paper was published in Part II of the January issue (pages \*337 through \*573). The dagger (†) preceding the page number indicates that the paper was published in Part II of the May issue (pages †1 through †232).

# TONOGRAPHY (continued)

- influence on tonographic readings other eye, 587
- new method of, 723
- recording galvanometer and, 409
- to study action Priscot on aqueous flow, 724
- with restoration of initial pressure, 233
- with Schiøtz tonometer and Merté support, 126
- Tonometer, effect footplate hole on scale reading, 723
- Schiøtz, Merté support for, 126
- standardized X-, 920
- weights, consistency of 1955 calibration of, 883

# TONOMETRY: applanation, \*557

- ocular rigidity and, †147
- pressure-volume relationship at low pressures, \*557
- routine, in 2,100 patients, 649
- to detect glaucoma, 125

Tonsillitis, as source of eye disease, 711

Torsion, method to measure, 349

Toxicology, ophthalmic, 608

Toxocara canis, endophthalmitis due to, †185

Toxoplasma, recovered from human eye, 262

# TOXOPLASMOSIS: 143

- congenital, in state school for blind, 409
- experimental, 262, 604
- uveitis of, 285

Trabecula, corneoscleral, separation from bed in glaucoma, 783

endothelium of, 422, 901

recent histologic findings on, 238

trabeculum, 696

Trabecular meshwork, aqueous flow through, 267

in primary open-angle glaucoma, 519, 919

Trabeculodysplasia, 783

Trabeculum corneo-sclerale, 255

TRACHOMA: corneal degenerations of, 720

entropion and trichiasis of, 139

etiological problems in, 623

experimental, produced by cultured virus, 429

50-year study of, 747

in Australasia, 718

in Australia, †134

Northern, 503

in French West Africa, 147

in Japan, 716

infection with, accidental laboratory, 430

laboratory research in, 284

pannus of, 717

repository drugs in, †220

serology in, 717

serous iritis as a first symptom of, 431

Transaminase, in retina, in iodate pigment degeneration of, 607

lenticular, in experimental anaphylactic uveitis, 612

Trachomatous, late infection after, 248, 887

Trichiasis, of trachoma, 139

Troncoso, Manuel Uribe, 597

Trypan blue, teratogenic effect of, 903

Trypsin, effect on blood injected into vitreous, 906

Tryptophane deficiency, protein synthesis in, \*348

TUBERCULOSIS: chorioretinitis of, nicotinic acid and

streptomycin in, 616

experimental, 713

in children in Zakopane, 713

pulmonary, fundus changes in, 616

serologically diagnosed, 279

studies of, at Debreceen, 744

Tubercularin chloride, in cataract surgery, 487

Tularemia, oculoglandular, 630

# TUMORS: intraocular, 742

invasion tendencies of, 140

of malignant, 741

phase-contrast microscopy to diagnose, 140

ocular rhinosporidiosis simulating, 440

of choroid, 742

of conjunctiva, 622, 715, 719, 721

of cornea, biomicroscopy in, 718

# TUMORS (continued)

- of distal nerve, 195
- of eye, radioisotopes to diagnose, 297
- of eyelids, 139, 297
- chemotherapy of, 278
- of iris, 412, 625
- iridectomy in primary, 624
- melanoma, treatment of, †118
- of lacrimal gland, 859
- of lacrimal sac, 296, 741
- of limbus, biomicroscopy in, 718
- of optic disc, 195
- of optic nerve, 77, 135, 136
- of orbit, 91, 141, 438, 440, 738, 739, 742, 863
- diagnosis of, 618
- surgery of, 738
- of retina, 44, 742
- histogenesis of, 236
- of retinal pigment epithelium, 311
- of salivary gland, 859
- of uvea, 625
- prepubertal melanoma, †202
- pseudotumor cerebri, 617
- xanthomatous, 742
- Twins, audiovisual reactions in, 427
- identical, color perception disparity in, 449, 911
- keratoconus in, 122

# U

Ulcers: See under names of various organs, etc.

Ultrasound, 616

absorption of, in aqueous, lens and vitreous, 424

choroidal detachment by, 431

locating techniques with, 614

to study pulsation wave of eye, 618

velocity of, in eye, 424

Ultraviolet radiation, excretion of 17 ketosteroid in urine

after, 904

Urea, to reduce ocular tension, 124

Uremia, fundus changes in, 133

Urine, effect carbonic anhydrase inhibitors on citrate

excretion in, 878

17 K excretion in, after ultraviolet radiation, 904

in vernal conjunctivitis, 907

Usher's syndrome

UVEA: mast cells in, effect hormones and avitaminosis

C on, \*509

prepubertal melanoma of, †202

tumor of, rare, 625

Uveal tract, a review, 123

UVEITIS: 591, 917

anaphylactic, adenosinetriphosphoric acid and, 265

aqueous osmotic pressure in, 904

lenticular transaminase in experimental, 612

anterior, †155

antistreptolysin-O determination in, 94

granulomatous, 918

idiopathic, inoculation tests in, 285

in allergic encephalomyelitis, 260

in children, 285

lactic dehydrogenase activity in experimental, 703

Middlebrook-Dubos test in, 262

ocular tension in experimental, 721

perivasculitis and, †176

phosphatebenzoiccarbinololtrimethyl acetate with as-

corbic acid in experimental, 422

posterior manifestations of, †171

retinal detachment in, †174

signs and symptoms of, †155, †171

streptococcus in, 917

toxoplasmic, 285

vitreous detachment in, †172

vitreous opacities in, †171

Uveomeningitis, fundus changes in, 431

**Explanation:** Numbers in **boldface** refer to Original Articles and Notes, Cases, Instruments. The asterisk (\*) preceding the page number indicates that the paper was published in Part II of the January issue (pages \*337 through \*573). The dagger (†) preceding the page number indicates that the paper was published in Part II of the May issue (pages †1 through †232).

## V

- Vaccination, smallpox in herpetic keratitis, 623  
 Varicella, optic nerve atrophy after, 735  
 Vascular changes, visual failure and, **590**  
 Vergence, accommodation and, 120, 585  
 electromyogram to study, 876  
 Vernal catarrh, allergic reactions in, 283  
 keratoconus and, 716  
 Vernal conjunctivitis: See under Conjunctivitis  
 Virac, a new iodophore, 609  
**VIRUS:** adenovirus type 8, experiments on humans, 238  
 in epidemic keratoconjunctivitis, 916  
 and viral disease, symposium on, 604  
 cytomegalic inclusion disease due to, **152**  
 herpes: See Herpes  
 herpetic, in anterior chamber, 719  
 infection, of eye and adnexa, 605  
 upper respiratory, 605  
 phenomenon of interference of, 623  
 status and prospects in study of, 605  
 trachoma: See under Trachoma  
**VISION:** 442  
 binocular, anomalies of, fusion for distance in, 281  
 at synoptophor, 273  
 bilateral aphakia and, 129  
 in free space, 273  
 striated glass to examine, 272  
 blurred, in uveitis, **1157**  
 corticogenic, **358**  
 failure in, vascular changes and, **590**  
 low, optical aids in, **582**, 908  
 optic nerve circulatory disturbances and, **767**  
 pernicious anemia and, 928  
 stereoscopic, 274  
 subnormal, magnification in, 436  
 television reader for, **580**  
 twilight, driving safety and, 147  
**VISUAL ACUITY:** determination of, in amblyopia, 709  
 examination of, in children, 709  
 illumination of background and, 613  
 improvement of, in strabismus with amblyopia, 910  
 in Brazilian Indians, 746  
 limit of, 614  
 measurements of, standardization of, 274  
 Romberg apparatus to test, 613  
 Visual apparatus, alterations of in toxic polyneuritis, 298  
 Visual cells, differentiation of, 270  
 layer, of developing eye, acid mucopolysaccharides in, **\*488**  
 metabolic organization of, 270  
 viability of, 270  
 Visual cortex, ablation of, in dark-reared kittens, 875  
 electroencephalogram to study, 708  
 Visual failure, neurosurgeon's role in acute, 618  
**VISUAL FIELDS:** constricted, glaucoma operations in  
 patients with, 920, 921  
 defective, in arteriovenous aneurysms of brain, 137  
 in optic nerve atrophy, 136  
 fluorescent test object for taking, **688**  
 importance of, 912  
 in bilateral homonymous hemianopsia, **42**  
 in glaucoma, pathogenesis of, **1177**  
 inversion of, to test malingering, 711  
 loss in glaucoma, due to circulatory insufficiency in  
 optic nerve, **1177**  
 test object for taking, 617  
 Visual function, entoptic examination of, 272  
 Visual pathways, damage of, 138  
 Visual performance, limits of, 270  
 Visual purple, regeneration of, effect amino acids on, 612  
 electroretinogram and, 708  
 Visual system, on-responses in human, 272  
 Visual tests, new optotypes for, 907  
**VITAMINS:**  
 A: in liver, 267  
 intoxication, eye manifestations of, 706

## VITAMINS, A (continued)

- overdosage of, ocular tension and, 124  
 B<sub>1</sub>: in blood, 267  
 in eye after removal cervical ganglion, 608  
 B<sub>2</sub>: influence on corneal respiration (rabbit), 608  
 metabolism of, keratitis and, 282  
 B<sub>12</sub>: binding substance in tears, 608  
 diabetic retinopathy and, 727  
 in disease of optic nerve, 735  
 deficiencies: A: retrobulbar neuritis and, 135  
 B<sub>1</sub>: retrobulbar neuritis and, 135  
 B<sub>2</sub>: blepharoconjunctivitis and, 621  
 B<sub>12</sub>: tobacco amblyopia and, 132  
 C: effect on uveal mast cells, **\*509**  
 radiographic sulfate to study, **\*519**  
**VITREOUS:** a review, 726  
 antibacterial properties of human, 902  
 biomicroscopic structure of, 289  
 cells of cortical layer, 101  
 crystallography of, 880  
 detachment, in uveitis, **1172**  
 effect trypsin on blood injected into, 906  
 fluid, cataract extraction in presence of, **249**  
 glucose content of, in diatone diabetes, 265  
 hemorrhage, studies on, 264  
 interference microscopy to study, 881  
 intravitreal, in retinal detachment surgery, 291  
 lens luxated into, extraction of, 287  
 opacities, in uveitis, **1171**  
 parasite in, 435  
 persistent hyperplastic, histologic study of, **491**  
 perfusion of, aqueous outflow and (cat), **657**  
 preservation of, **304**  
 proteins of, 237  
 in retinal degenerations, 607  
 self-sterilizing property of, 263  
 structure of, after refrigeration with dry ice, 603  
 surgery of, **103**  
 ultrasound absorption in, 424  
 vascular veils of, 291  
 viscosity of, influence hormones on, 730  
 Visuscope, to map retinal function, **677**  
 Vogt-Koyanagi-Harada disease, 144

## W

- Waardenburg-Klein syndrome, 446  
 Water, metabolism in glaucoma, 920  
 of lens, 609  
 tritiated, to measure corneal water transport, **\*419**  
 Weather, anterior chamber hemorrhage after cataract ex-  
 traction and, 628  
 Werner's syndrome, in three brothers, 627  
 Wood's light, application of, 912  
 Wounds, closure after cataract surgery, **246**  
 healing of, 276  
 perforating, of ciliary body, **309**

## X and Z

- Xanthomas, 295  
 Xanthomatosis, eye manifestations in, 145  
 Xanthomatous tumors, 742  
 Xerophthalmia, keratomalacia and, 717  
 X rays, aqueous changes induced by, 270  
 in diagnosis, 277  
 photography, to measure axial length of living eye, 612  
 to measure ocular axis, 617  
 therapy, in neovoxanthoendothelioma, **683**  
 in orbital angiomas, 742  
 optic nerve atrophy after, 735  
 Zakopane, ocular tuberculosis in children in, 713  
 Zephiran, effect on corneal viability, **308**  
 Zonule, cataract extraction after disinsertion of, 128  
 of Zinn, ligament of Weiger and, 260  
 Zonulolysis, enzymatic: See Enzymatic zonulolysis  
 Zonulotomy, suture in sclera for, **867**
